

AEROSPACE

With the large concentration of aerospace related industries in the area, Middle Georgia has been dubbed Georgia's "Aero-space Corridor". Middle Georgia is home to more than 100 aerospace companies and contractors. The Middle Georgia area is home to Robins Air Force Base, the largest industrial complex in the state with over 21,000 maintenance and logistics workers, Embraer the third largest aircraft manufacturer in the world and Stevens Aerospace and defense Systems a South Carolina based company.

Macon-Bibb County offers workforce advantages for aerospace companies with wage rates below national averages, a favorable labor environment, trained workers and programs for ensuring expedited start-up operations. Strategic location in the center of Georgia at intersections of I-75, I-475, & I-16
